Introduction	v
Chapter 1: Main Definitions	1
1.1 Rise	2
1.2 Span	2
1.3 Utile length	2
1.4 Speed	3
1.5 Angle of inclination	4
1.6 Step Width.	5
1.7 Step.	5
1.8 Pallet	9
1.9 Combs and combplates	11
1.10 Handrail	13
1.11 Balustrade.	13
1.12 Skirting Panels	15
1.13 Inner Decking	15
1.14 Outer Decking	16
1.15 Floorplate	16
1.16 Flat Steps, Horizontal Steps or Step Run	18
1.17 Direction of movement	19
1.18 Safety mechanisms.	19
1.19 Layout	20
1.20 Kinds of placement	20
1.20.1 One-way placement (Single non-continuous)	20
1.20.2 Two-way traffic placement (Crosswise)	21
1.20.3 Double non-continuous (Two-way traffic).	21
1.21 Measurement and selection	22
1.22 Transportation capacity.	23
Chapter 2: Standards.	25
2.1 U.S. and Canada: ASME A17.1/CSA B44	26
2.2 European Standard: EN 115-1.	26
Chapter 3: Accident Analysis	27
3.1 Definition	28
3.2 Accident Analysis	28
3.3 Minimizing risk	29

3.4 Classification of accident intensity levels	29
Chapter 4: Accidents during installation.	31
4.1 Transportation.	32
4.2 Placement	35
4.3 Montage	36
4.4 Testing and commissioning	37
Chapter 5: Accidents and Safety Systems	39
5.1 Accidents due to faulty design	40
5.2 Accidents due to lack of proper maintenance.	41
5.3 Accidents due to unsafe riding practices	41
5.3.1 Safety signs.	42
5.3.2 Safety programs	43
5.4 Classification of accidents	43
5.5 Types of injuries	45
5.6 Preventative strategies	45
5.7 Examining types of incidents and related mechanisms	46
5.7.1 Accidents involving combs and combplates.	46
5.7.2 Entrapment between step and skirt.	50
5.7.3 Entrapment in handrail entry	52
5.7.4 Tripping due to downward displacement or fracture of a step	54
5.7.5 Entrapment between steps	55
5.7.6 Missing steps	57
5.7.7 Falling due to sudden stops	59
5.7.8 Entrapment between handrail and high-deck or wall.	61
5.7.9 Falling due to handrail stop or low speed	64
5.7.10 Missing emergency-stop button	66
5.7.11 Slippery entrance, exit or step surfaces	67
5.7.12 Missing secondary power switch	68
5.7.13 Brake failure and high speed	69
5.7.14 Effects of poisonous material	71
5.7.15 Open space and missing safety guards at landings.	74
5.7.16 Collision with building structures at ceiling.	75
5.7.17 Lack of enough space at entrances and exits	77
5.7.18 Sitting on or hanging from handrail	81
5.7.19 Mobility devices	84
5.7.20 Missing emergency-stop button in escalator pits	91

5.7.21 Insufficient lighting in workspace	92
5.7.22 Electrocutation	93
5.7.23 Inadequate space in escalator stations	93
5.7.24 Fire.	94
5.8 Safety signs	98
Chapter 6: Safety recommendations	99
6.1 Safety recommendations	100
6.2 Stepping on	100
6.3 Children	100
6.4 Riding	101
6.5 Stepping off	101
6.6 Emergency situations	102
Chapter 7: Safety in one look	103
