

**ACKNOWLEDGMENTS**

Writing and editing a book is pleasurable yet hard work. It takes time and patience and often relies upon the help and assistance of other people. To all these other people who have helped me with my research, I would like to take this opportunity to offer my sincere thanks.

To Nick Gaw for his help, support and advice throughout the publication, to John Fryer, Matthew Self and Norman Cohen for getting me started and to Mike Ashworth and David Ellis of the Covent Garden Transport Museum.

My special thanks to John Gale and Grey Liplely for their enthusiastic and creative input, without which this book would not have been possible.

I would also like to thank Dennis Burrows and Ken Holm of the Otis Elevator Company Archives, David Cooper of CIBSE. The London Otis staff, with especial thanks to Dave McGraw and Mike Hirst and to Ron Wanless and Jeff Midgley of O&K and Nick Chappelle of CNIM.

Finally, thanks to Mike Horne of LUL and Paul Hadley, who both contributed to the final information on the Spiral Walkway at Holloway Road.

Ray Orton.
